12. You'll use all, but the small loop from the die-cut pieces. Rub pieces with a bone folder to break down the fibers in the card stock and allow it to curl easier. Using Glue Dots, fold the ends of the large loop section toward the center and adhere to form bow. Adhere the tails of the bow to the bottom side of the loops with Glue Dots. Wrap the center section around all adhered layers and attach with Glue Dots.

13. Tie the tag through the right loop into a knot. Trim ends of Baker's Twine. Adhere bow onto box with a Dimensional.

Your gift box is finished...Enjoy!!
